

Caesarstone Care & Maintenance

How do I maintain Caesarstone's natural beauty?

Simply wipe with warm water and soap, using a damp cloth or paper towel. There is no need to worry about grease, grime, hairspray, or messy makeup spills — Simply wipe it off! CaesarStone is easy to care for and naturally maintains its luster for many years to come.

How should I remove stubborn or dried spills?

Use a damp, soft cloth with warm water and soap. If needed, apply common household cleaners such as Soft Scrub, Clorox Gel, and Mr. Clean Erase. To remove adhered material such as food, gum, nail polish or even dried paint, first scrape away the excess material with a plastic putty knife and then clean the surface with a damp cloth to remove any marks left behind and any residual dirt.

How durable is Caesarstone?

CaesarStone is resistant to cracks, chips, scratches and stains. However, like most materials, excessive force and/or pressure from objects can damage the surface.

CaesarStone is resistant to most stains caused by fruit juices, liquid food coloring, coffee, tea, wine, grapes and soft drinks.

CaesarStone's high gloss finish and non-porous nature provides maximum resistance to staining and fully eliminates the need for any sealing. The non-porous quality of the surface greatly reduces the potential for bacterial growth.

Do I need to apply a sealer to Caesarstone?

No. Due to the surface of CaesarStone being non-porous, you never have to apply a sealer to any CaesarStone surface.

Can I cut on my Caesarstone countertop?

CaesarStone is composed 93% natural quartz, providing it with superior strength and beauty. Although your fine cutlery will not harm CaesarStone, using a cutting board is recommended to prevent dulling the surface.

How do I maintain the polish on my Caesarstone?

Polished: Due to its high density and non-porous qualities, normal cleaning with a damp cloth will keep your CaesarStone surface looking like the first day it was installed.

Honed: It is very important that you understand that HONED FINISH will require more daily maintenance than our polished finishes. Since there is more exposed surface area with honed finishes, metal marks, finger prints and other signs of daily living will show on honed material. Most of these marks can be easily removed with little effort and cleaning products such as Soft Scrub. For tough stains, work the area with a Scotch Brite pad.

How does Caesarstone withstand heat?

Caesarstone is structurally more heat resistant in comparison to other stone, including granite. However, any stone material can potentially be damaged by sudden and rapid temperature changes, especially near the edges. Therefore, using

inexpensive and readily available hot pads or trivets is always recommended, especially when using cooking units such as electric frying pans, crock pots, or roaster ovens. As Caesarstone is not affected by heat below 400 degree F, it is advised that hot pans not be placed directly on the material. Always apply common sense to assure the beauty of your Caesarstone product.

Is assuring the beauty of my Caesarstone this easy?

CaesarStone's care-free maintenance and everlasting benefits and performance allows more time for the things that matter most to you. Whether you selected CaesarStone to be your "surface of choice" for food preparation or to simply beautify your home, you can enjoy the peace of mind knowing that CaesarStone is completely worry and care-free.
